**Abstract of DE10029624**

The arrangement has a frame construction with an integral stowage compartment (22) in the rear part of the back rest (12) and/or head rest (14) formed by profile struts (16) in the frame and able to be used for different purposes. The compartment can be fitted to the individual requirements of the vehicle user and closed by a cladding element (24) with closed and open positions.
